Subject: Release of New Product

Hand Holder with ϕ 2.34 mm & ϕ 3.0 mm Collets

We are pleased to announce the release of our new product, the **Hand Holder with ϕ 2.34 mm & ϕ 3.0 mm Collets**, specifically designed for tools with ϕ 2.34 mm and ϕ 3.0 mm shanks. The product will be available starting Wednesday, **October 1, 2025**.

This newly developed tool holder features a user-friendly design that enables quick and effortless tool changes—reducing manual effort and improving overall work efficiency.

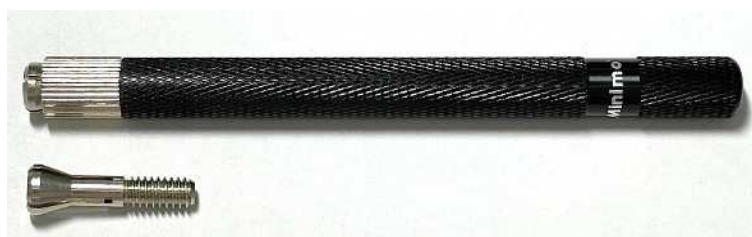

Its ergonomic grip offers comfortable hold, while the enhanced stability ensures smooth and precise control, especially during detailed polishing or finishing work.

Compatible with a wide range of tools, this single holder offers outstanding versatility and ease of use.

Also launching on the same day is the "**Diamond Plated Bent Files**", designed specifically for use with the holder. Seven types are available, each featuring a specialized shape ideal for fine-detail work—making it a valuable addition for a variety of precision applications.

To further support users, a value-packed "**Hand Holder with Diamond Plated Bent File Set**" will be released simultaneously.

This set includes the Hand Tool Holder along with three types of diamond files—offering an ideal combination of performance and affordability for those new to precision polishing.
